

Since 2017, Davidson Farms has provided a refuge for local orphaned tween and teen girls. It is here where we promise our girls a safe and loving home. Now we are celebrating our next stage of growth, our Cottage Community! These cottages will be a bridge to independence for our girls as they age out of foster care.

Under our guidance these young ladies will learn to live on their own while working on their education or career. Will you be a changemaker for our girls and support our Cottage Community? Help us Pave the Way Home by purchasing a brick or paver. Your brick will help form walkways to each cottage, a path our girls will walk each day as they enter their own home.
